

Future of information driven Integrated Border Management

EU Borders - Getting Smarter Through Technology
Tallinn, 17 October 2018

Richard Ares Baumgartner
EU Affairs Strategic Advisor

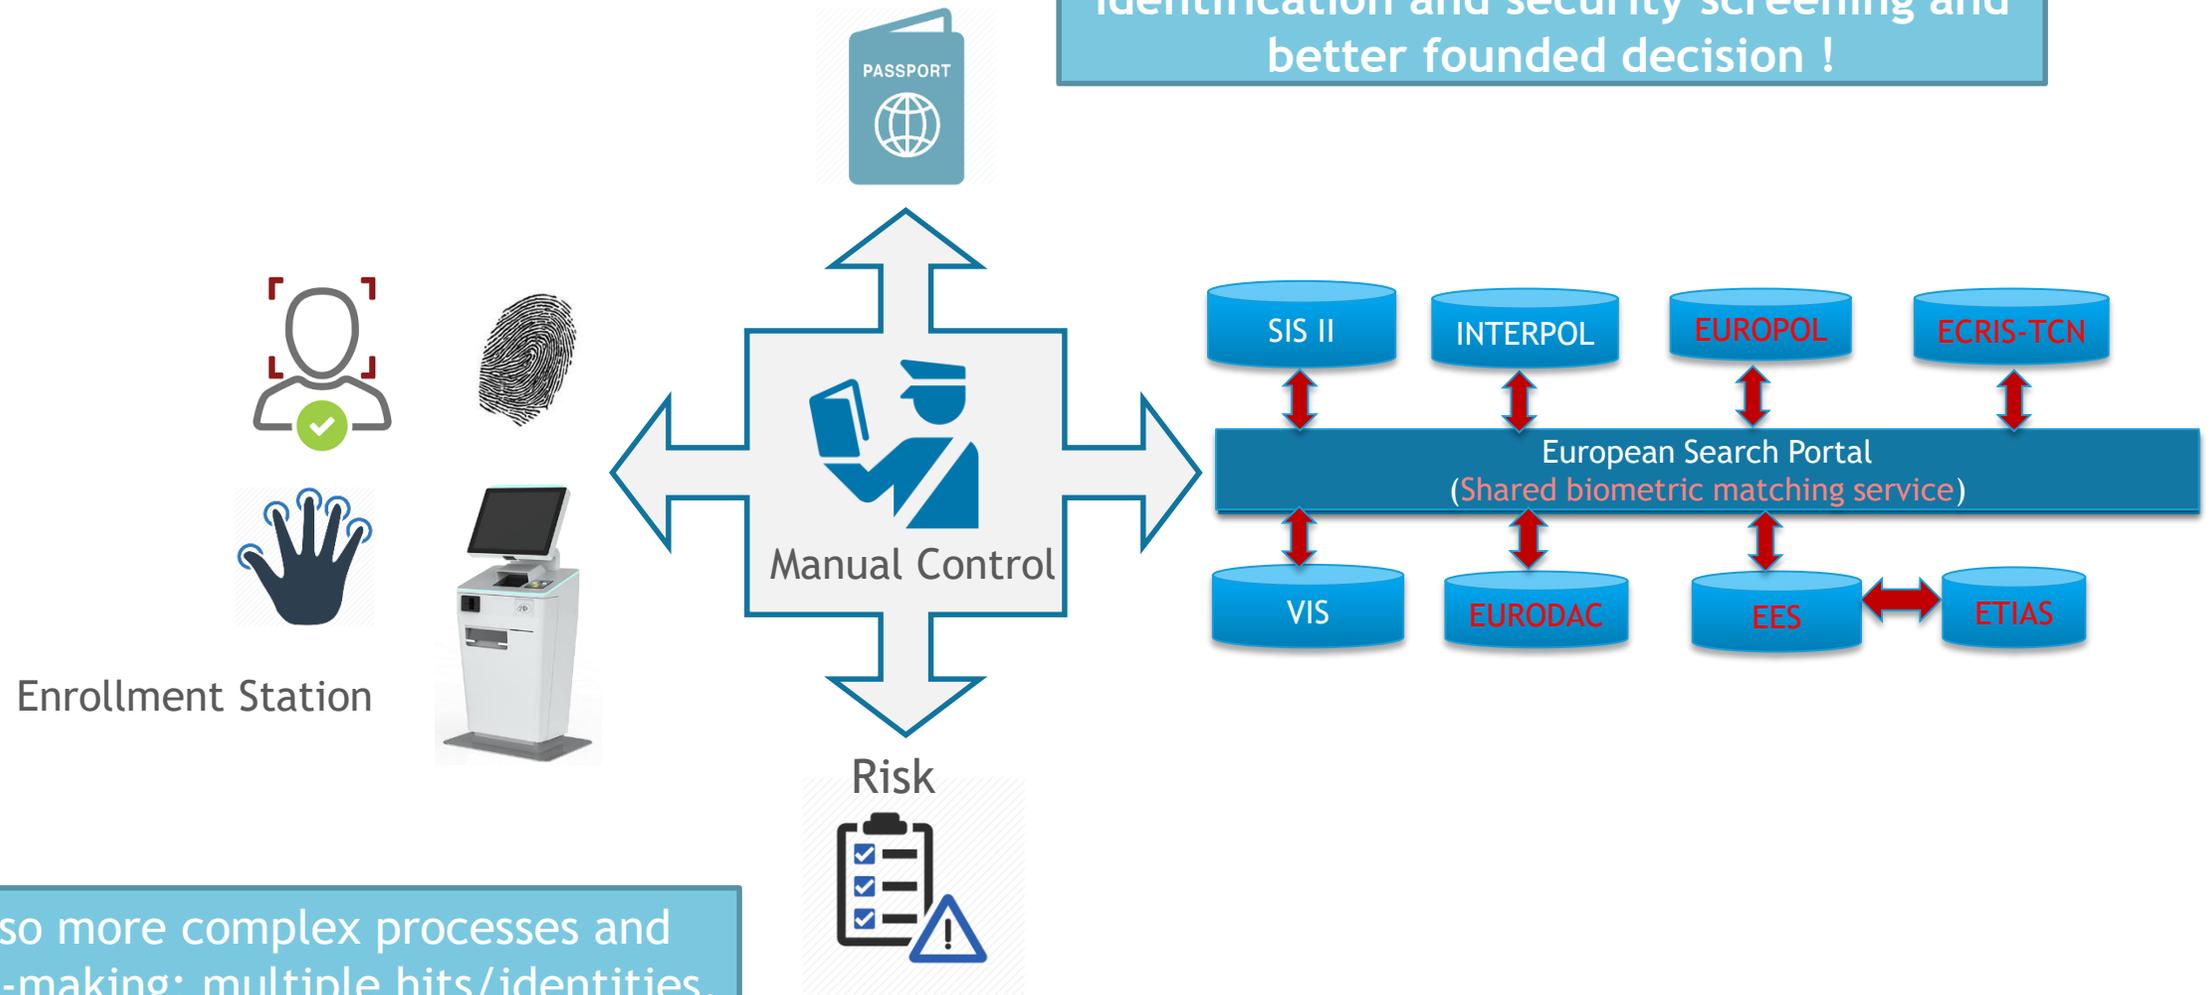

Events and decisions along the “border continuum”

(*) Estimated 2020
 (**) Approximated 2017
 (***) Estimated 2017

Border officer - Decision making

More information and systems for a reliable identification and security screening and better founded decision !

But also more complex processes and decision-making: multiple hits/identities, different MS and Agencies involved, time critical !
